## MESSAGE FROM THE PRINCIPAL

Dear Parents,

In October 2018, SVIS Nha Trang conducted mid-term assessments on different school subjects including Mathematics and Vietnamese for the primary school pupils. Through the test results, the Principal and teachers took appropriate teaching measures to rectify the teaching quality aimed to weak students.

The form teachers informed parents about their learning outcomes in mid-October. Parents have to cooperate with the school to take appropriate measures to support the weak students.

Students at SVIS Nha Trang had a field trip. They learned useful living skills such as: making doughnuts, wrapping pancakes, folding rice cake in half, learning how to grow vegetables ... These activities made the children appreciate the achievements of their own efforts.

The students were delighted to be creative, to show their strengths during Halloween. They made devil lanterns, puppet decorations, supernatural monster models, witches, ninjas ... with many different colours.

The Principal

Mrs. Nguyen Thi Hanh

### EXCURSION AND MAKING DONUT CAKE FROM PRIMARY STUDENTS

On October 19th, SVIS Nha Trang held an event for the elementary students. The topic was "Junior Baker". It was held at Yasaka Saigon Vocational Training Centre. At this centre, the students learned how to make doughnuts and they tried to bake their own little cakes as a gift to their mothers. It was a great experience for the children. Everyone did their best to create beautiful and lovely cakes with their personal touch. Looking at the joy of completing their own products and how they cherished their cakes made us - teachers at SVIS Nha Trang School very proud.

We wish the knowledge and skills learned at SVIS Nha Trang will be a solid asset for them.

Ms. Nguyen Ngoc Hoai My - Primary Teacher

### VIETNAMESE WOMEN'S DAY 20/10

*"The world without women will be as insipid and humdrum as a play without conflict, like a pie without its filling, like an anecdote without witty jokes".*

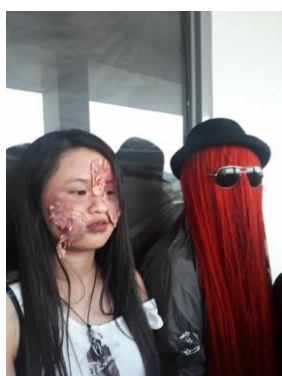

The beauty of a women is a constant which is invariable for thousands of years. Women also promote their inherent roles, strengths, ingenuity.

Today, many Vietnamese women not only do housework but also remain quite active in the community. This is an important factor which contributes to the development of the society. They are moving forwards with a more successful, confident, and beautiful image.

On the occasion of Vietnamese Women's Day 20 -10, students of SVIS Nha Trang School have expressed their love through beautiful cards, harmonious paintings and loving and sincere wishes. The students' hearts are special gifts to their Mothers, Grandmothers and female Teacher during this holiday.

Ms. Nguyen Dang Y Nhi - Maths Teacher

### **ANIMAL FAMILIES**

We've all been there: ask a young child a seemingly straightforward question, and then get a hilariously random answer in return. And that was my highly amusing experience when I quizzed little ones with: "What's your favorite animal?"

Grade 3 explored the classification system used to identify animals. Most children are fascinated by animals and often have an animal that is a particular favourite, possibly even an animal the child never seen before. Children also like to order and sort things, and animal classifications melds both of these interests.

The students imagined that they were biologists studying animals in the wild. They created and classified different animal families (reptiles, birds, fish, mammals, and insects) in a poster and presented it to their classmates. They had lots of fun drawing and writing the animal families' different features.

Because animals nearly universally interest children, there are a myriad of books on them geared to young learners and children. I strongly recommend children to read more about animals and our physical world.

Mr. Riccardi Bessard - English Teacher

### **HALLOWEEN FESTIVAL**

Halloween is celebrated on October 31st every year. It is celebrated in Western countries which has a long-standing history. However, It has spread to other Asian countries, including Vietnam.

SVIS @ NT organized some competitive activities such as: making the most horrible zombie and taking part in different games. However, the most exciting activity was the Halloween Fashion Show.

These activities provided them a connection, and mutual support to reach their final goal for each activity. They couldn't wait to play and to show their own personalities. This particular moment always excites them. They were really happy to play games with their classmates. We hope that this event will be engraved in their memory.

### **REGULATION OF NO-SMOKING INSIDE THE SCHOOL**

Smoking is banned for all employees, teachers, students and parents at school.

The school ban applies to anyone present on school premises during and after school hours including students, teachers, contractors, parents/guardians or the wider community, such as sporting groups and all activities that take place on school premises including outside school hours care, cultural, sporting or recreational activities and school fetes.
