MESSAGE FROM THE PRINCIPAL

Dear Parents,

Teaching is a noble profession. They are quiet on the podium and simple in their real life, they are the quiet bees among the flowers in order to save every amount of the best and the sweetest honey drips for life.

20/11. The Vietnam Teacher's Day is a day to show gratitude and thanks to teachers in Vietnam. To celebrate this special day, the teachers and students of SVIS Nha Trang have organized various activities: class decoration, wall-newspaper and the extremely exciting friendship football match between teachers and students.

These activities left a mark in the hearts of every student and teacher. It was an unforgettable day that helps both teachers and students to continue, work and learn together. The teachers always expect students to fly high and far, reaching new heights and bringing pride back to their beloved country, Vietnam.

On Week 17 (26-30/11/2018), Teachers will send review outlines to students. Parents should remind their children to review well to get high testing results.

Wishing all of you have more health and fun in every new day.

The Principal

Mrs. Nguyen Thi Hanh

VIETNAM TEACHER'S DAY 20/11

November has come with a joyful atmosphere for Vietnam Teacher's Day 20/11. It is a day that the whole society shows respect and glorify teachers' great contributions. We all have a beloved feeling when we think about our beloved teachers.

During the month of November, I felt the cheerful and joyful atmosphere when the students prepared wall newspapers and class decoration. These activities expressed their feelings and love to all teachers. The teachers are strict, but they are always dedicated to teach them not only knowledge but also how to live, how to behave with each other. Teachers always expect their children to be better.

The song "In this moment", though it has been used for a long time in broadcasting events, remained in my head and created unforgettable emotions: touching feeling upon my beloved old teacher; reminiscing my first year of teaching with nervousness and anxiety.

As a teacher, I wish to become a model in order to share the knowledge and joy in my students' life.

As a grown-up student, I wish all beloved teachers to be happy and have good health, to be stronger on the ship bringing knowledge to students.

SEMESTER TESTS – AY 2018 - 2019

The semester test schedule has been sent to parents by class teachers and the briefs are as below:

1. The test schedule for Year 1 to Year 5: from 17/12 to 21/12/2018
2. The test schedule for Year 6 to Year 11: from 26/12/2018 to 05/01/2019.

The detailed subjects and time have been sent via student books to parents for further information. Parents please support to the school by reminding students to be on time for the tests.

5th Grade Science

Science is a subject that 5th grade students really love and enjoy. From the beginning of this year, they have learned about People and Health and Material and Energy.

Since they are in adolescence, they are curious about the physiological characteristics of puberty. They are curious to explore the world around them, etc. Therefore, during these classes, People and Health, children are always happy to exchange, share ideas, discuss, watch videos or documentaries how to keep personal hygiene, protect oneself and others, and how to prevent some common diseases in order to learn about the formation of the human body,

"Material and Energy," they have done small experiments to distinguish some familiar material. In addition, they have an important assignment, which is "research and invention of scientific products using energy." In order to complete this important assignment, they have to work very seriously and actively, maximize their imagination, creativity and aesthetics. In addition to creating the products according to the teacher's criteria, they also have to report on science products using power-point, the reporting deadline is Friday (14/12/2018).

Hope that we will have some genius, excellent scientists and researchers in the future.

Ms. Nguyen Thi Kim Anh – Primary Teacher

UPCOMING EVENT: CHRISTMAS CHARITY FAIR

We would like to invite all parents to come and join us with the Christmas Charity Fair event which is the second year organized in SVIS@Nha Trang.

Date: Friday 21st December 2018

Time: from 15:00 to 18:00

There are more than 30 stalls being set up in the event including food, drinks and entertainment activities that are conducted by our students and school staff.

All transactions are made by coupons which are ready to sell out by books of 10 coupons each from 10th December 2018.

All profits will be sent to the Charity of Operation Smile Vietnam.

We are looking forwards to welcome all parents in the meaningful Christmas Season this year.
