NEWSLETTER

August / 2022

Dear Parents,

Welcome back to the first day of school for students of SVIS Nha Trang. August 8, 2022 is officially the first day of the new school year 2022-2023; the day parents bring their children to school after an exciting summer break, the time SVIS Nha Trang students have to say goodbye to summer, to fun and relaxing trips and return to school with teachers, friends and family, continuing to discover new horizons of knowledge, a new school year with many promises awaiting you.

The school is pleased to welcome all students - who are the freshest flowers, the future owners of the country, and especially express our joy in welcoming Grade 1 students and the new students who have just attended our school from the school year 2022 - 2023.

On the eve of the new school year, I hope that you will always try hard, work hard, and practice hard to study better and make progress every day.

I believe that with the pride of being SVIS students, you will be obedient, confident, creative and successful in achieving the desired results in the new school year 2022-2023.

Wish all parents, students, all teachers and school staff lots of health and happiness.

Mrs. Nguyen Thi Hanh
Principal

SCHOOL READINESS

Each child develops their school readiness over time, therefore, the adjustment can be unsettling for both parents and children. It takes children lots of practice to grasp and retain a routine. We, teachers at SVIS, have lots of experience and are well-prepared to teach and equip elementary school students with knowledge. Patience, strictness and encouragement are key words to create an interesting learning environment for children. The English department at SVIS came up with some methods to maintain an organized classroom and ensure that students are comfortable, happy and engaged while successfully learning and practicing English.

1. Develop an ESL Routine (and Stick to It): the best way to control your elementary English class isn't to constantly discipline them, it's to create a routine and stick to it. Structure and routines tend to work well with young learners.

2. Create activities for Classroom Management: The best way to find the balance between being the cool teacher and the teacher pupils listen to is to come up with fun little games that catch your students' attention (while also getting them to participate in English).

3. Keep Kid-friendly English Activities in Your Back Pocket: A good elementary school teacher is one who's enthusiastic and comes prepared with a lot of activities. By following this routine, teachers at SVIS will become teachers that elementary school pupils listen to, as well as the fun teachers that they all love.

Mr. Riccardi Bessard
EFL Teacher

FEELING ON THE FIRST DAY OF SCHOOLING

In each of us, the first day of school always brings many feelings of anxiety, excitement mixed with joy, surprise which are forever imprinted in our memories. Every year, in the midst of the golden autumn colors, Singapore Vietnam International School joyfully welcomes the return of students of all grades and new students. Follow me to see what the youngest 1st graders of SVIS think about their first school!

The children all felt very happy and attached to this second home as if it was their own home. That is also the desire that all teachers try to fulfil with lots of affection and effort to teach their students.

Ms. Dang Thi Anh Tuyet
Primary Teacher

Phương Mai Ella: Con thích học trường SVIS nhất trên đời luôn á! Ở trường học con thấy rất vui.

Những điều học sinh nghĩ

Thiên Hoàng Tommy: Đồ ăn ở trường ngon tuyệt vời ông mặt trời, hôm nào con cũng thích ăn đồ ăn ở trường hết.

Nam Anh Tom: Con thích đi học lắm, 5h con dậy đi học rồi.

Đức Tâm Peter: Con cho bạn bánh và bạn cho con lại bánh của bạn, ở trường con có các bạn rất vui.

FIRST LESSON OF THE GRADE 1

The 1st graders got to know the new school, teachers and friends, familiarized themselves with the elementary school routines as well as having interesting lessons in the first lesson. The school always wants students to not only acquire knowledge but also develop their capacity, confidence, and creativity. Through learning and playing lessons, the students are stimulated to develop their creativity such as connecting numbers, creating animals, coloring animals by numbers, drawing animals from numbers...

We invite you to take a look at some photos of our first period.

Ms. Nguyen Thi Thuy Duong
Primary Teacher

LIFE SKILLS LESSONS

Life skills are considered as an important part of each individual, helping us achieve success in studying, in working and in daily life.

To put it simply, life skills are a group of positive behaviors and the ability to adapt to the environment that helps each individual face and solve daily challenges. Life skills are built from education or experience in life.

SVIS @ Nha Trang always focuses on teaching life skills to students. The school make plans and apply teaching life skills not only in the classrooms but also in skill periods and team activities.

The topics that the school focuses on guiding students such as learning to respect, love, sympathize, share with everyone; know how to handle situations, solidarity, cooperation, creativity, confidence, discipline, diligence, honesty...

Life skills bring great benefits to everyone, helping to solve problems in life, making life more joyful, positive, meaningful and happy.

The school is very excited and happy to welcome your children back to school after the happy summer days. We look forward to seeing you again in the exciting and fun activities.

Ms. Huynh Thi Qui Qui
Primary Teacher

BACK TO SCHOOL

August 8, 2022, was the first day of school. After almost two years of having effects by Covid-19 and online classes, students are finally back to their normal school life. It was definitely a very special day not only for students but also for parents. Especially for year 1. This school year, we have almost 50 students of year 1 students which means it was the 50 young aspiring learners' big day. Everyone is dressed up with their school uniforms while carrying their new backpacks and cute water bottles. Some had ear to ear smiles on their faces while some have confused and sad expressions while saying goodbye to their moms and dads as they start their journey as students. Year 1 students started their day by introducing themselves to their new peers and making new friends. Most of them seemed very excited to go to school. New environment, new teachers and new friends. Almost everything is new, yet everyone had a fun and memorable first day of school.
