# NEWSLETTER

March / 2023

Dear Parents,

We have conducted main activities in March 2023 as following:

- All classes carried out class activities and made greeting card for Women's Day with beautiful and emotional writing words sent to their Grandmothers, Mothers and Teachers.
- Students conducted reviewing and consolidating for 2<sup>nd</sup> Mid-Semester tests
- Students keep going with swimming courses as per the planned for the SY 2022 – 2023.

On the behalf of School Management, I wish all parents, students & school staff healthy, happiness and success in life.

- Health benefits of swimming

## Courageous Women in History

This month we've celebrated International Women's Day. During this month our student's developed a renewed appreciation for all women from past, present and future. We also took the time to learn about important female figures from history: women who had an important impact on the world. Let's take a closer look at 3 leading ladies.

### Amelia Earhart

Amelia Mary Earhart was an American **pilot** and **author**. Earhart was the first woman to fly alone across the Atlantic Ocean. She set numerous other records, was one of the first aviators to promote commercial air travel, wrote best-selling books about her flying adventures, and was instrumental in the formation of a female pilot organization. She disappeared in 1937 and was never seen again. Decades after her disappearance, Earhart was inducted into the National Aviation Hall of Fame in 1968 and the National Women's Hall of Fame in 1973.

### Marie Curie

Marie Salomea Skodowska-Curie was a Polish and naturalized-French **physicist** and **chemist** who pioneered radioactivity research. She was the first woman to receive a Nobel Prize, the first person to receive two Nobel Prizes, and the only person to receive a Nobel Prize in two different scientific fields. She was the first woman to be appointed as a professor at the University of Paris in 1906. What an amazing academic role model.

### Florence Nightingale

Florence Nightingale fought for women's rights, was a **statistician**, and she was the founder of modern **nursing** in England. During the war, Nightingale rose to prominence as a nurse, manager and trainer. She organized care for wounded soldiers. She significantly reduced the number of deaths by improving hygiene and living conditions. Nursing gained a positive reputation thanks to Nightingale, who became an icon of her time.

EFL Teacher

**VIRTUE POSTER - COOPERATION**

Cooperation is working together and sharing the load. When we cooperate, we join with others to do things that cannot be done alone. We are willing to follow the rules and work with the team. This is one of the values that the students learn every Tuesdays and Wednesdays. Last Tuesday, the students learned about cooperation. They had to pass the ball to their classmates using their feet and the others have to make sure the ball does not fall; therefore, they have to cooperate with each other to accomplish the task. Cooperation is necessary everywhere. For one to be successful, he or she has to cooperate, whether it is at work or in a classroom. Doctors, firefighters, pilots, football players, basketball players, lawyers, teachers, parents, everyone has specific tasks but they need to cooperate in their line of work to successfully finish them. It is important that students learn cooperation from a young age. "No man is an island", we need to cooperate and work as a team.

## TEACHING OF DISCOVERING & EXPERIENCING FOR PRIMARY STUDENTS

Primary students are the age of curiosity and want to discover everything. The world around them is full of new things that they do not know. Before being a student, they will play countless pranks to satisfy their curiosity. But how they discover the right direction and have cooperation and integration is what the school will support you.

Along with learning and being habituated to the rules of the classroom, strengthening the courage as well as creating interaction between teachers - students, students - students are also things that will have to be taught to children. The teacher will allow the student to view a clip or observe a specimens during the thematic activities. The teacher gives the task when the purpose has been formed, and then the students are responsible for carrying it out. But they don't have to do it alone; there are some tasks that they can only complete with the help of their friends.

The student will be able to draw a beautiful landscape picture in their imagination, but it will be more interesting if they can directly see a scene and draw it. The student will have a lovely name tag prepared by the teacher that is nicely set up on the table, but it will be exciting if they can create one themselves. It is possible for the student to sit down and put together the fairy tale that the teacher just told, but it will be more entertaining if they and other students retell that story to one another...

That is discovery.

It doesn't need to be extensive scientific researches; even simple tasks or activities can help students develop comprehensively. And no matter what grade or age your child is in, this is the precise goal that all teachers at SVIS Nha Trang always pursue.

**Ms. Duong Thi Thu Hanh**

**Primary Teacher**

## MY KINDERWORLD APPLICATION

We would like to inform that from Term 4, School Year 2022 – 2023 onwards, letters, emails, information and requests stated below will be solely communicated via My KinderWorld App:

- School Events
- Announcements / Messages from School and teachers of your child's class
- Daily Class Attendance
- Termly Meal Menu
- Photo Albums
- Absence Request
- Early Dismissal Request
- Change information request

There will be no longer letter or email communication between School and Parents regarding the above particular matters.

**My KinderWorld App** can be downloaded from the Apple App Store (Click [here](#)) and Google Play (Click [here](#)). Or you can scan QR code below for quick installation:

### 1. App Store

### 2. Google Play

Should you require any assistance, please contact the School Office.

## ANNUAL SWIMMING COURSE

Duration: 20 February 2023 – 02 June 2023

Venue : Yet Kieu Swimming Pool - 10 Yersin Nha Trang

### HEALTH BENEFITS OF SWIMMING

Swimming is a great workout because you need to move your whole body against the resistance of water.

Swimming is a good all-round activity because it:

- keeps your heart rate up but takes some of the impact stress off your body
- builds endurance, muscle strength and cardiovascular fitness
- helps maintain a healthy weight, healthy heart and lungs
- tones muscles and builds strength
- provides an all-over body workout, as nearly all of your muscles are used during swimming.
