

SINGAPORE VIETNAM INTERNATIONAL SCHOOL @ NHA TRANG

NEWSLETTER

FEBRUARY 2024

Dear Parents,

Main activities of SVIS@NT in February 2024:

- All students took Tet holidays from 05 Feb to 16 Feb 2024.
- Students resumed for studying from 19 Feb 2024 as per the schedule planned.
- All ECA and other activities have been resumed for operation. Students have enjoyed the clubs enthusiastically after taking a long holiday.

IN THIS ISSUE

- Message from the Principal
- Traditional TET in Vietnam
- Weekly Lifeskills activity – Creativity
- Games in teaching and learning
- Using Mind maps

We wish all parents, students, teachers, and staff a happy, healthy and success beginning of the year of Dragon.

Mdm. Nguyen Thi Hanh,
Principal

Vietnamese Traditional TET

As the vibrant colors of spring peek through, we excitedly welcomed the arrival of Tết, the Vietnamese Lunar New Year, marking the year of the Dragon! This joyous occasion signified not only the start of a new year but also a time for family reunions, cherished traditions, and celebrating new beginnings.

Celebrating at School:

To bring the spirit of Tết into our school, we had exciting activities planned throughout the week.

Tết Craft Time: Students unleashed their creativity by designing paper lanterns, crafting lucky envelopes, and making beautiful bánh chưng ornaments.

Delicious Tết Treats: Students savored the flavors of the season with a special tasting of traditional delectable snacks.

Celebrating at Home:

Remember, the true magic of Tết happens beyond the school walls and we hope students shared the joy with their loved ones by cherishing moments of togetherness over a delicious Tết feast, sharing stories, laughter, and good wishes for the year ahead.

As we move into the new year let us:

- Reflect on the past year with gratitude and learn from our experiences.
- Embrace new beginnings with open hearts and hope for a fulfilling year ahead.
- Cherish the bonds of family and friends, spreading joy and unity in our community.
- Appreciate the richness of Vietnamese culture and share its beauty with others.

Ms. Marie Chinn

Weekly Lifeskills activity – Creativity

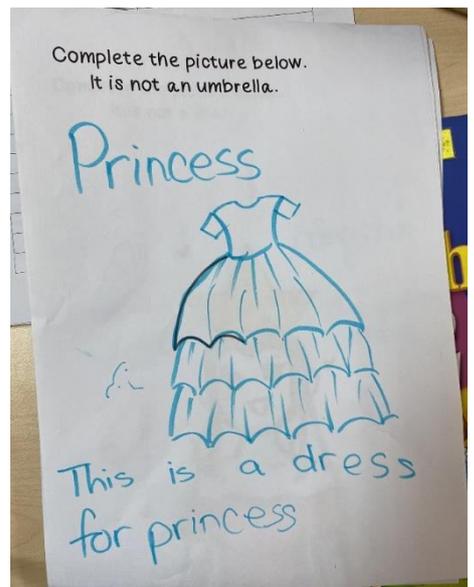

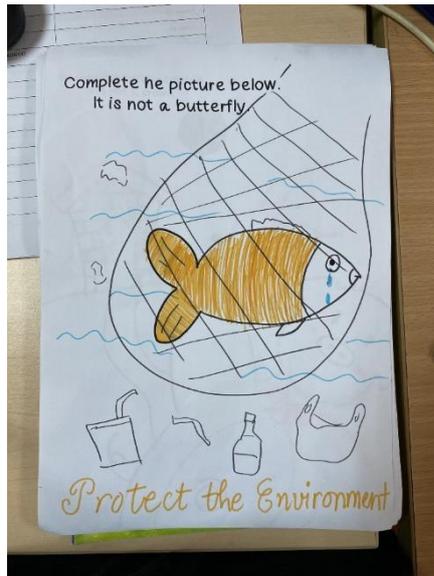

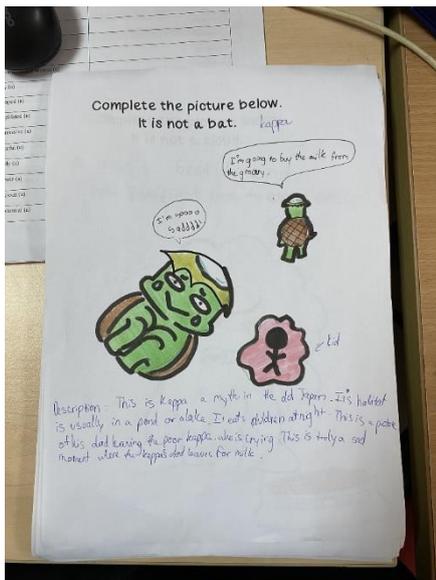

For students at SVIS, creative thinking helps them master knowledge, proactively explore new things, and help them confidently face challenges. Thereby, they will easily attain high achievements in their studies and future career.

Creative skills are one of the topics of the Morning Activities Class every Friday at SVIS. Here, high school students took on the challenge of using their creative thinking to create another picture from the basic drawing of a familiar object.

Let's take a look at these creative paintings.

Games in Learning and Teaching

For each of us, we have experienced many game activities. The fun and attraction that the game brings always makes us feel comfortable and happy. Games are always applicable anytime and anywhere. We can play indoors, in the yard, in the playground...

In particular, games are the most effective practical educational method for the formation of children's personality and intelligence.

Along with learning, children can participate in games integrated into lessons, games in activities class, picnics, life skills lessons,...

Games are not only applied in learning but also in life, which helps children promote the creativity, exploration, discipline, love, solidarity, sharing, helping and supporting each other to achieve success.

Using Mind Maps

Mind maps are ideal tools of teaching for teachers and students. After finishing a topic, students will systematize the knowledge they have learned about the whole topic through a mind map.

Using mind maps brings many benefits. Students feel very excited when working in groups, applying their creativity and quickly and logically remembering the knowledge they have learned.

Let's take a look at some of our photos.
