## **FACT SHEET FOR PREMIUM VIETNAMESE EDUCATION PROGRAMME**

Dear Parents

A whole new Educational Experience awaits you and your child at Singapore Vietnam International School (SVIS).

SVIS offers a Premium Vietnamese Education Programme targeted at Vietnamese students who are seeking a broader perspective with an international aspect for their education. With a strong Vietnamese curriculum complemented by English to develop English Language competency, the programme:

- Prepares students for local and international universities
- Administered by KinderWorld's Academic Board
- A full national Vietnamese curriculum regulated by Ministry of Education and Training (MOET) and taught by qualified Vietnamese teachers to develop students' knowledge and critical thinking
- English International Curriculum and IELTS Preparation Programme (Year 12) taught by foreign teachers
- Opportunity to sit for Cambridge English and IELTS examinations
- Extracurricular activities develop physical, emotional and creative skills

Our programmes include a STEM focus with elements of Science, Technology, Engineering and Mathematics explored through a problem-based and applied learning approach from Primary to High School.

Students from Year 4 upwards are encouraged to participate in the Outward Bound Programme (<http://www.obv.vn>) which is designed to build self-confidence and strengthen leadership skills such as teamwork, perseverance and effective communication. The Outward Bound Programme is not part of the school curriculum. The School Office will inform parents the Outward Bound Programme Fees and Course schedule in due time for registration.

Students will receive two Report Cards which will state their results for the Vietnamese curriculum and English International curriculum. Upon completion of Year 5, students will receive a Primary School Completion Certificate. Upon completion of Year 9, students will receive a Junior High School Completion Certificate issued by the District Department of Education and Training. Upon successful completion of the National Senior High Graduation Examination, students will receive a Senior High School Completion Certificate issued by the Provincial Department of Education and Training.

SVIS believes in a holistic approach to education and a learning environment in which students are guided and nurtured throughout their education. The learning environment is carefully designed to stimulate our students' developing minds and needs. Activities for the day are varied and are carried out by the whole class, small group instruction and individual interaction.

Effective communication between parents and the school is also important as the relationship between parents and school has a direct bearing on the success achieved by students.

We look forward to welcoming you and your child at SVIS @ Nha Trang.

Thank you.  
The Management
