

SINGAPORE VIETNAM INTERNATIONAL SCHOOL @ NHA TRANG

NEWSLETTER

November / 2021

Dear Parents,

In November 2021, SVIS@NT school has the following activities:

- Teachers and students decorate classrooms, make wall newspapers to celebrate Vietnamese Teachers' Day on November 20 with a variety of unique forms and content.

Along with fresh flower bouquets, wishes and poems are spiritual and meaningful gifts sent by the students containing a lot of love and affection to the teachers and thankfulness to all teachers for guiding the children in the first days of school, so that they can grow up and reach their dreams.

- On November 19, high school students (Year 10 - Year 12) received the Covid-19 vaccine. (1st dose)

- The school made a list of students in the lower secondary school (Year 6 – Year 9) who registered for the Covid-19 vaccine

- The school actively participated in pandemic prevention, cleans and disinfects facility every day, and rearranged tables and chairs to ensure the safety of students and staff working at the school.

- Students took the mid-term test.

- Form teacher sends the students' mid-term results to their parents.

Wish all parents, students and teachers good health and safety.

Mrs. Nguyen Thi Hanh
Principal

- Update on construction progress – Phase 2

Develop speaking and writing skills

At the start of the school year we decided 2021-2022 will be the year we challenge all students to use their writing and speaking skills in class.

People's desires are fulfilled when they can clearly express their ideas and opinions to others. With good communication skills, they can fulfil their ambitions, desires, and goals. As English is widely used all over the world, there is a need for learners to acquire communication skills to achieve success in their respective fields. Speaking is the most important of the four language skills and the classroom is the ideal platform to acquire good communication skills (especially speaking skills).

With these factors in mind I have set up writing and speaking classes every second week. This will work wonders as students will build confidence in speaking before big groups and also work on pronunciation and vocabulary at the same time.

Let's get creative together!

Mr. Diederick Wolmarans
EFL Teacher

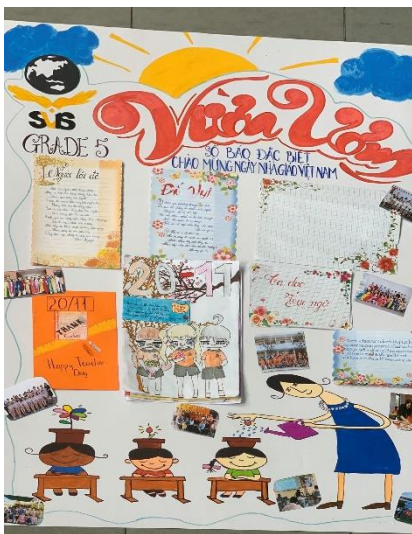

Newspapers for Teacher's Day 20/11

In order to continue the tradition of venerating teachers and respecting morals, last November, SVIS @ Nha Trang school organized "Wall newspaper making competition to celebrate Teacher's Day. Students take advantage of their creativity with unique ideas to make handmade stickers and decorate the wall newspapers.

Along with creativity, the children also expressed their affection for the teachers through funny but cute words and wishes. Wishes are sent to the teachers of SVIS @ Nha Trang and give us - the teachers and staff of the school - more motivation, more passion for teaching the future generation of the country.

Ms. Ngo Thi Huyen Tram
Primary Teacher

Thoughts shared by students on Teachers' Day 20/11

In November- the last month of the year, the rainy, windy, cold days are like a teacher's hard work. However, teachers are like a boatman who never surrender and continue to bring generations of students to the shore of glory. Have you ever wondered how you will become the Teacher your students most want you to be? Let's listen to what the students share!

Every teacher wants to teach their generations of students to be talented, warm-hearted and useful people for society. And after many years, teachers still observe the path and remember their students.

Ms. Dang Thi Anh Tuyen
Primary Teacher
